

# FOG JET PF 0105

## DESIGN / APPLICATION DATA:

Aquascape Fog Jet is designed for low wind area. It's not to create great height, but rather large volume making it particularly suitable for architectural fountains .  
Please bear in mind that when installed in outdoor fountains, due to the small weight of the droplet, the wind can easily "overflow" the water fountain; therefore, it should not be installed in wind area.

## SPECIFICATION DATA:

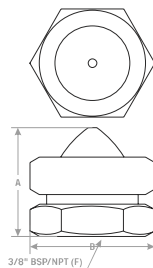

Material of construction is brass with Stainless steel cap

## OPERATING DATA:

Noise : Poor  
Visibility : Good  
Splash : Poor  
Wind Stability : Poor  
Aeration Quality : Good

PF 0105

## HYDRAULIC DATA

| Model No. | BSP/ NPT | Orifice in mm | Dimension A (mm) | Dimension B (mm) |             | Stream Height in Meter |      |      |      |
|-----------|----------|---------------|------------------|------------------|-------------|------------------------|------|------|------|
|           |          |               |                  |                  |             | 0.50                   | 1.00 | 1.50 | 2.00 |
| PF 0105   | 3/8"     | 2.75          | 35               | 35               | LPM         | 4.40                   | 5.70 | 7.50 | 9.60 |
|           |          |               |                  |                  | Head in Mtr | 1.80                   | 3.50 | 5.00 | 6.00 |
