

LED012

12W LED UNDER WATER FOUNTAIN LIGHT

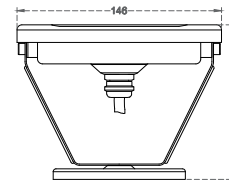

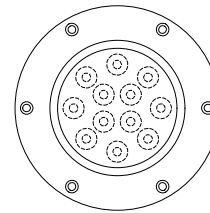

DESIGN / APPLICATION DATA:

LED012 lights are ideal for any underwater Fountain & pool application. The fittings are IP68 submersible rated, and are manufactured from Stainless Steel 316 for maximum performance and style. The fittings produce exceptional light output thanks to the powerful Power LED and are available in single colour or RGB options.

The fittings come with an adjustable Stand which makes for easy positioning for the best effect.

LED012

SPECIFICATION

Model	LED012
Voltage	12V DC
Wattage	12W
Light colour	RGB, WARM WHITE, WHITE, RED, GREEN, BLUE
Bulb type	LED
Beam angle	40°/25°
Dominant Wavelength (nm/K) RGB	R: 620-630 G: 520-535 B: 465-485
Dominant Wavelength (nm/K)	W/W: 2800-3200K W: 5700-8000K
Luminous flux	120LM/W
Operating temperature	-20 ~ +50°C
Storage condition	-40 ~ +80°C, 10 ~ 95% RH
Cable	H07RN-F cable 2.5 Mtr length
Protection class	IP68
Casing	Stainless Steel 316

Model	Voltage	Wattage	Colour Available
LED012	12V DC	12W	RGB, WARM WHITE, WHITE, RED, GREEN, BLUE
